Amendments to the Claims

The following listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently amended) A method performed by a computer system, comprising:
storing an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of a hardcopy version of the paper; and
in response to content of a first portion of the likeness, forming a hyperlink reference and embedding the hyperlink reference ~~it~~ within the first portion of the likeness ~~electronic version~~, wherein the hyperlink reference is associated with a second ~~an operation of the computer system and with the~~ portion of the likeness, such that when the first portion of the likeness ~~electronic version~~ is displayed on the display device ~~as the likeness of the hardcopy version~~, the first hyperlink reference's associated ~~portion of the likeness~~ is selectable by a user to cause the computer system to display the second portion of the likeness on the display device ~~system's performance of the hyperlink reference's associated operation~~, and wherein the content is at least one of the following, ~~other than a computer network address~~: a page number at which the second portion of the likeness is located within the paper; and a title of the second portion of the likeness ~~an alphanumeric character; a symbol; a term; a phrase; and a reference~~.

15. (Currently amended) A computer program product, comprising:

a computer program processable by a computer system for causing the computer system to:

store an electronic version of a paper, wherein the electronic version is displayable on
a display device as a likeness of a hardcopy version of the paper; and

in response to content of a first portion of the likeness, form a hyperlink reference and
~~embed the hyperlink reference it within the first portion of the likeness~~
~~electronic version~~, wherein the hyperlink reference is associated with a second
~~an operation of the computer system and with the~~ portion of the likeness, such
that when the first portion of the likeness ~~electronic version~~ is displayed on
the display device ~~as the likeness of the hardcopy version~~, the first hyperlink
~~reference's associated~~ portion of the likeness is selectable by a user to cause
the computer system to display the second portion of the likeness on the
display device ~~system's performance of the hyperlink reference's associated~~
~~operation~~, and wherein the content is at least one of the following, ~~other than a~~
~~computer network address~~: a page number at which the second portion of the
likeness is located within the paper; and a title of the second portion of the
~~likeness~~ ~~an alphanumeric character; a symbol; a term; a phrase; and a~~
~~reference~~; and

an apparatus from which the computer program is accessible by the computer system.
